## DIRECTIONS FOR USING THE *PHASES OF THE MOON* BLANKET PLANNER

Use these planning pages while you are researching the moon's phases and special occurrences throughout the pregnancy. A handy website for research is linked on the *Phases of the Moon* webpage at [babyblanketcentral.com](http://babyblanketcentral.com).

It helped me to fill in the dates of the moon's quarters. Also, do a Google Search for when the special moon occurrences happened, so you know where to crochet them in.

Notice that Week 1 is at the bottom of the planning chart. You probably already guessed that the charts follow the construction of a baby blanket ~ from the bottom up!
